

This form must be completed by the student and their physician and turned in to the fire academy director on the first day of classes.

PHYSICAL STATEMENT

The physical and medical examination should be conducted for the purpose of detecting or determining the presence of deficiencies or abnormalities which would reasonably be expected to limit the abilities of the applicant to satisfactorily and safely perform all the duties associated with firefighting.

The Essential Functions of Firefighting listed below are meant to serve as a reference resource for physicians when determining the fitness of a candidate for firefighting duties as recommended by NFPA 1001: *Standard for Fire Fighter Professional Qualifications*' Entrance Requirements. The Essential Functions of Firefighting are meant to define and to give a broader understanding of the physical requirements demanded of firefighters. The Essential Functions of Firefighting are merely meant to be used as an aid for physicians when assessing the physical status of a candidate.

I, as a licensed practicing physician, have examined and certify the individual listed below to be in good health and physically fit for the performance of duties as a firefighter.
